ogunmuyiwajonathan@gmail.com | Portfolio: jonworld.vercel.app | GitHub: github.com/ogunmuyiwajonathan

PROFESSIONAL SUMMARY

Software engineer and designer based in Nigeria, building web applications where performance and craft are the same requirement. Hands-on experience shipping responsive web apps, interactive interfaces, and full-stack prototypes with React, Next.js, TypeScript, Node.js, Flutter, Python, and MySQL — 7+ live products across dashboards, story platforms, booking experiences, business landing pages, and AI-powered tools. Driven by a curiosity about how the web works under the hood, turned into discipline: still testing, still chasing the version of "good" one step past what's currently known.

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript, TypeScript, HTML5 / CSS3, Tailwind CSS

Backend & Databases: Node.js, Express, Python, MySQL, MongoDB, Convex

Mobile Development: Flutter, React Native, Dart

AI & Tools: Custom AI Agents / APIs, Figma, Git, GitHub, Vite, Vercel

WORK EXPERIENCE

FREELANCE WEB DEVELOPER — Independent 2024 – Present

- Architected and deployed 7+ production web applications end-to-end using React, TypeScript, Tailwind CSS, Node.js, Convex, and MongoDB, optimizing UI/UX and hosting on Vercel.
- Engineered responsive, reusable React UI components across desktop and mobile, ensuring high visual fidelity and consistent design system standards.
- Design, build, and deploy web projects for real use cases, including business landing pages, story platforms, dashboards, and interactive web experiences.

PART-TIME SOFTWARE / WEB DEVELOPMENT — Stalworld Tech Part-time

- Contribute to software and web development work in a part-time role.
- Engineer responsive, reusable React UI components across desktop and mobile, ensuring high visual fidelity and consistent design standards.
- Support frontend implementation tasks across internal tools and prototypes as the engagement ramps up.

SELECTED PROJECTS

Jonathan Portfolio (3D) jonworld.vercel.app/

React, TypeScript, Vite, Tailwind CSS, Three.js / 3D web technologies — Personal developer portfolio presenting web development and UI work with interactive 3D visual design.

CampusCoin — Full-Stack Budget Tracker (TechWiz 7 entry) campus-coin-nine.vercel.app/

React 19, Tailwind CSS v4, React Router 7, Express 5, MongoDB — Student budget tracker with per-category budgets, four-tier AI categorisation, CSV import with batch undo, PDF/image report export, and a server-side AI assistant reading the user's own figures.

Solibu Stories — Digital Reading Platform solibu-stories.vercel.app/

React, TypeScript, Convex, Three.js — Full-stack story platform with a searchable library, in-browser reading, immersive 3D book animations, dark/sepia themes, an admin panel, and a favorites & reviews system.

LifeOS — AI-Powered Productivity Dashboard life-o-system.vercel.app/

React, TypeScript, Tailwind CSS — Life operating system dashboard with an AI decision engine, habit tracking, task management, journaling, and customisable widgets.

Dr. Olatoye — Educational Consultant Landing Page dr-olatoye.vercel.app/

React, Tailwind CSS, Framer Motion — Professional landing page for a Nigerian educational consultant: 40+ book catalog, WhatsApp ordering integration, animated hero with live counters, mobile-first for the African market.

Belleville Dental Care (DEMO) — Healthcare Web App project-belleville-dental.vercel.app/

React, TypeScript, Tailwind CSS — Responsive dental-care website with appointment scheduling, service descriptions, and patient resources. Personal frontend project, not a commissioned clinic website.

Tasty Crust (DEMO) — Restaurant Web App tasty-crust.vercel.app/

Tailwind CSS — Fully responsive restaurant/bakery app with menus, booking sections, and a cart experience styled for strong UI/UX.

Stalworld Tech (DEMO) — Company Landing Page stalworldtech.vercel.app/

React.js — Professional landing page and marketing site demo designed and built from the ground up: clean, modern brand showcase with optimized conversion flows, responsive design, and smooth visual transitions.
